

# Arbor Day Planting Event in Coal Creek – Monday, 12 April 2010

Leave Lake City Library parking lot off exits 128 and 129 of I-75 on U.S. Highway 25W at 9:30 am on Monday, 12 April 2010 for carpooling to and from the planting site. If it rains, we'll try again on Tuesday, 13 April 2010. Site was reclaimed in the 1980s by conventional methods and has been prepared by the Forestry Reclamation Approach for planting trees.

*For questions, contact Carol Moore at [clmoore@geoe.com](mailto:clmoore@geoe.com) or (865) 584-0344*

*100 students will plant 100 potted American chestnuts, 400 bare-root seedling American chestnuts, and 600 walnut, oak, poplar, and pine bare-root seedlings. We need volunteers to help manage the kids. Visit [www.coalcreekaml.com](http://www.coalcreekaml.com) for details.*

## EMAILS FROM TEACHERS AFTER 2009 ARBOR DAY PLANTING EVENT AT ZEB MOUNTAIN FRA SITE:

*"We had a great time today. My students loved being able to raise their own chestnuts and then transplant them. They were also in awe of the blasting they saw. Again, thanks for including us in this tree planting adventure."*

*"This was not your typical field trip. I am so proud of my students for their hard work and not once did I hear a complaint."*
